EXPERIENCE SUMMARY

Software Developer with hands-on experience in Python, JavaScript, AI/NLP, machine learning, APIs, software testing, and web development through The Tech Academy's AI Software Development Bootcamp. Built and tested applications including a Python-based Study Assistant, AI API integrations, data-processing tools, and machine learning projects using technologies such as NLTK, scikit-learn, pandas, and NumPy. Experienced working in Agile/Scrum environments with Git, GitHub, Azure DevOps, automated testing, and collaborative development workflows.

TECHNICAL SKILLS

Programming/Development - Python, JavaScript, Html/CSS

Frameworks/Libraries - NLTK, scikit-learn, pandas, NumPy, React, Flask

Database - SQL

IDEs - Visual Studio Code

Project Management - Azure DevOps, Agile/Scrum

Version Control - Git, Github

Business Domains - AI, Machine Learning, Natural Language Processing, Web Development

PROJECTS

Python Study Assistant - Built rule-based and NLP chat engines with conversation state, input normalization, confidence-aware fallbacks, and desktop/browser interfaces; trained on 216 labeled examples across nine intents and validated with 32 automated tests using Python, NLTK, scikit-learn, Tkinter, HTML, CSS, and JavaScript.

Gemini API Assistant - Built a Python CLI using Google's Gemini API with secure environment-variable credentials, input validation, and error handling.

WORK EXPERIENCE

Software Developer Intern | Prosper IT Consulting - Portland, OR | August 3 - August 14 2026

- Completed software development tasks for a production-style Python/NLP application, including UI enhancements, input validation, fallback behavior, and regression testing.
- Expanded automated test coverage to 32 passing tests and documented behavior across desktop, browser, mobile-width, long-input, unsupported-input, and state scenarios.
- Collaborated in Agile/Scrum using Azure DevOps, Git branches, user stories, stand-ups, pull requests, and iterative code reviews.

Head Painter | Apollo Painting - Bend, OR | May 2025 - Oct 2025

- Led daily work, coordinated materials and schedules, maintained quality standards, and resolved job-site issues.
- Project and time management, customer communication

Experienced Painter | Bill Sizemore Painting - Redmond, OR | Nov 2023 - Nov 2024

- Delivered detail-oriented work while coordinating priorities, communicating progress, and meeting project deadlines.
- Customer communication, problem-solving, strong collaboration within team settings.

Service Writer | Auto Network Group - Bend, OR | Jan 2023 - Jun 2023

- Managed technical service documentation, estimates, scheduling, and workflow coordination; implemented a connected CRM process that improved information flow.
- Led the transition from a standalone service-writing system to a new platform integrated with the sales team's CRM.
- Built and executed a proactive scheduling and outreach program to generate additional business, including follow-up with customers who had purchased vehicles but not yet returned for service.

Managing Painting Contractor | South Sister Construction - Sisters, OR | Mar 2020 - Jan 2023

- Owned end-to-end delivery of full interior/exterior home and deck painting projects, leading a crew of 2-3 painters averaging 3-4 completed jobs per month.
- Directed scheduling, estimating, budgeting materials and quality control from plan to completion, resolving job site issues in real time.
- Introduced technology-based project tracking, improving scheduling accuracy, customer communication, and development of leads.

Sales Specialist → Store Manager → Commercial Sales Manager | O'Reilly Auto Parts - Redmond, Prineville & Central Point, OR | Apr 2015 - Feb 2020

- Started as a Sales Specialist in Redmond, OR and earned multiple promotions over five years, advancing to Store Manager and ultimately Commercial Sales Manager.
- As Store Manager, turned around an underperforming Prineville location that had struggled to retain staff, rebuilding it into a thriving, top-performing store; led a team of 8-11 employees and out-sold the larger Redmond market for two consecutive months, with average monthly sales growing as much as 30%.
- Managed day-to-day store operations, including KPI tracking and sales performance analysis, staff hiring and termination decisions, inventory management, and returns and warranty processing.
- Promoted to Commercial Sales Manager in Central Point, OR, overseeing commercial account sales through the remainder of tenure with the company.

EDUCATION & TRAINING

AI Software Development Bootcamp | The Tech Academy - December 2025 - August 2026

- Hands-on training in Python, JavaScript, HTML/CSS, SQL, C#/.NET, web development, APIs, machine learning, neural networks, NLP, data processing, Docker, software testing, Git/version control, and collaborative Agile development.

High School Diploma | Sisters High School | Sep 2005 - Jun 2009

- Varsity athlete in multiple sports, all 4 years in Soccer.
- Managed the student run store Junior year. Responsible for ordering, scheduling, and other managerial tasks.
